In this role, you will be responsible for our global software applications in the Microsoft cloud and work with a global team of key users and external experts to ensure smooth operation and continuous improvement of our collaboration processes.

Responsibilities

- ✓ Manage our global Microsoft 365 (SharePoint, Teams, OneDrive) and Dynamics 365 Sales applications.
- ✓ Program Power BI dashboards Power Apps and Flows.
- ✓ Provide technical support and troubleshoot issues together with external experts.
- ✓ Implement new features and upgrades to automate our business processes.
- ✓ Develop and maintain application and training documentation.
- ✓ Develop and maintain strong relationships with internal stakeholders and external ICT partners.
- ✓ Control software license and project budget.

Requirements

- ✓ Degree in computer science or a related field.
- ✓ Minimum of 5 years of experience in ICT application management.
- ✓ Proven track record of successfully designing, implementing, and maintaining global collaboration platforms based on Microsoft 365 (SharePoint, Teams, OneDrive) and Dynamics 365 Sales.
- ✓ Excellent project management skills.
- ✓ Strong negotiation and relationship management skills.
- ✓ Proficiency in English, both spoken and written. German is a plus.
- ✓ Availability to travel to Germany, France, and the USA.

What we offer

- ✓ An exciting and dynamic global work environment.
- ✓ The opportunity to help shape and optimize global collaboration processes.
- ✓ Modern work infrastructure and working models.
- ✓ Parking spaces, charging stations, free fruits, and coffee, discounted healthy food from the FEFEL fridge, fitness room, showers and much more.

If you are a results-driven individual with a passion for Microsoft applications and business digitalization, we encourage you to apply for this exciting opportunity to join our team.
