

BOTTLE ADAPTOR WITH ACTIVATED CARBON

PRODUCT CHARACTERISTICS

Technology:	Activated carbon granules
Effect:	Reduces chemicals and improves taste and odour of filtered water
Useful life:	200 litres
Weight:	59 gr (2 oz)
Dimensions:	Length 5 cm (2")
Material:	Plastic, activated carbon
Article No.:	8013450

Series: Endurance or Backcountry

FACTS

- Refillable, external carbon cartridge for all filters with an outlet hose (for example Katadyn Pocket).
- Ideal for Katadyn Camp to fill up jerry cans.

PRODUCT CHARACTERISTICS > BENEFITS

- Activated carbon granules > reduce chemicals and make water taste fresher
- Bottle adapter > fits different water bottles
- Outlet barb > fits most hydration systems

USE

Attach directly to the end of the outlet hose. When filling in the activated carbon, fine dust is formed. Flush out with the first litre of water.

SHORT PROFILE

External carbon cartridge for chemical reduction and to improve taste and odour of filtered water.
