FACTS

- Micropur Forte disinfects clear water and keeps it germ-free for up to 6 months.
- Due to the strong oxidizing power of chlorine, most protozoa and fungi are eliminated as well as bacteria and viruses.
- Micropur Forte can be used wherever microbiologically unsafe water requires disinfection (e.g. drinking, cooking washing).
- It is also ideal for conserving water in water tanks, water baths, air conditioning systems, heating systems, humidifiers, wells, incubators and more.
- For clear, not for cloudy water as suspended matter can weaken the effect of chlorine and silver ions. Use a Katadyn Microfilter for cloudy water.

PRODUCT CHARACTERISTICS > BENEFITS

- Contains chlorine > disinfects water
- Contains silver ions > preserves water for up to 6 months
- Small and handy packaging > will fit everywhere

USE

Micropur Tablets

Use one Micropur Forte tablet for one litre of clear water; wait 10 minutes until the tablet has dissolved; shake well; wait another 20 minutes before using the water.

Further tips:

- If the water is very cold or you are concerned about the possible presence of Giardia cysts in the water, allow two hours wait time.
- The max. amount of silver in drinking water is 0.1 mg/l and is not exceeded once Micropur Forte has taken full effect.
- Use Mircopur Antichlorine to neutralise the (light) taste of chlorine.

Safety

In case of contact with eyes, rinse immediately with water.

Use biocides safely. Always read the label and product information before use.
