

BIOVECTROL TISSU – Special clothing and mosquito net insecticide and repellent

PRODUCT FEATURES

Use: Insecticide and repellent solution for impregnating fabric (clothing, mosquito nets and curtains, etc.). The WHO recommends impregnating clothing in malaria risk regions (40% of bites occur through clothing).

Composition: Permethrin 4,6% (26g/L) CAS 52645-53-1 –
Géranolol 0,01% (0,03g/L) CAS 106-24-1

Volume: 100 ml - **Weight:** 108 g

Item ref.: PHRE6000310ALL

EAN / ACL: 7612013003102 / 7739139

BAU nber : N-101119

Shelf life: 3 years

Use biocide safely. Always read the label and product information before use.

PRODUCT DESCRIPTION & ADVANTAGES

- Effective against all flying and crawling insects: flies, wasps, spiders, mosquitoes (Zika, Chikungunya, malaria, dengue, yellow fever) and disease-carrying ticks (Lyme disease, encephalitis).
- Protection: clothing 2 months and 6 washes (at 30°C); Mosquito nets: 6 months
- Allows roughly 10m² of fabric to be impregnated (5 pairs of trousers + 5 tops)
- Excellent persistence on all types of fabrics. Does not stain. Neutral smell.

DIRECTIONS FOR USE

Shake well before use; preferably spray Biovectrol Tissu outdoors. Apply evenly on the fabric to be treated, holding the aerosol vertically and at a distance of around 20cm from the fabric.

PRECAUTIONS FOR USE

Contains: Permethrin (ISO). Extremely flammable aerosol. Pressurised container: May burst if heated. May cause an allergic skin reaction. Very toxic to aquatic life with long lasting effects. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Avoid breathing spray. Use only outdoors or in a well-ventilated area. Avoid release into the environment. Wear protective gloves. **IF ON SKIN:** Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Collect spillage. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents /container according to the local rules. Do not use for any other use than that for which the product is intended. Avoid lengthy spraying.

TIP

Use a skin repellent as well, and an impregnated mosquito net in tropical zones
