Steripen Ultra™

PRODUCT CHARACTERISTICS

- Technology: UV water purifier
- Effect: Eliminates bacteria, protozoa and viruses
- Treatment size: ½ or 1 liter
- Treatment time: 48 or 90 seconds
- Lamp Life: 8000 activations
- Battery: Internal USB Rechargeable Lithium-Ion
- Minimum bottle diameter: 20 mm
- Weight (with batteries): 140 g
- Dimensions: 18.6 x 4.1 x 3.2 cm
- Kit contains: Neoprene carrying case and USB charging cord
- Article No.: ULT-MPEFG / EU: 60110072

FACTS

- Featuring a user-friendly display.
- The Steripen Ultra utilizes an internal battery that’s recharged from any USB power source; connect the included USB cable and start charging from a solar panel, laptop or car power port.
- Low-power indicator lets you know when battery needs recharging; when fully charged you can treat 50L.
- Ultraviolet (UV-C) light rays safely purify clear water by destroying 99.9% of protozoa (including Giardia and Cryptosporidium), bacteria and even viruses.
- When the treatment is complete, the on-screen smile lights up and lets you know that the water is safe to drink.
- Use only on clear water, as cloudy, sediment-laden water hinders effectiveness.
