Dimensions :	height 13.5 cm – width 4.5 cm – depth 2.7 cm		
Volume :	100 ml	Weight :	117 g
Ref article :	PH6000700		
EAN / ACL :	0604375007000/4240824		

DESCRIPTION

- Liquid soap made by traditional standards as per the Marseille soap method: cooked in a cauldron, using organic palm kernel oil, naturally glycerined.
- 97.06% of all ingredients are of natural origin and 10.80 % of all ingredients are derived from organic farming. Ecological and Organic Cosmetics certified by ECOCERT Greenlife as per the ECOCERT repository available on <http://cosmetiques.ecocert.com>.
- Inherently biodegradable: biodegradability rate over 28 days: 96 % as per the study based on the criteria defined by the OECD 302 B according to the detergent regulation CE n°648/2004 (a product is inherently biodegradable when the rate is greater than 70%)
- Plant based and Vegan soap. A delicate scent of essential oil of lavender.
- Can be used with both fresh (torrent, stream) and salt water. Is not harmful for aquatic environments.
- Gently cleanses the body and can be used repeatedly without risk. Recommended from the age of 30 months.

DIRECTIONS FOR USE

For hand-washing only. Do not use this liquid soap in dishwashers or washing machines. Preferably use hot or warm water (it's harder to clean greasy plates using cold water).

We recommend you store the product at a temperature of more than 8°C. In very cold conditions, the liquid solidifies but will recover its texture and colour as soon as temperatures rise (if necessary, warm it up in your hands). Highly concentrated, this soap is to be used in small quantities and will only lather slightly. Half a cap is sufficient to wash plates (for 5 litres of water), and one cap to wash clothes (for 10 litres of water). Must be used 12 months after opening.
