

Certiman NanoTec SiegelPolish 1000 – Long-lasting varnish protection for caravans, camper vans and boats/yachts

Article no.: 60130004
EAN: 40 15753 130047

Contents: 1000 ml

Thoroughly combined nano components clean, polish, seal, improve colour depth and provide a water repellent effect for up to 8 months.

Suitable for:

Lacquered surfaces.

Use:

We recommend giving the vehicle a quick basic clean before applying the product. After this, shake the bottle well and put undiluted certiman® NanoTec SiegelPolish on a soft cloth. Apply a thin and equally distributed layer, let it dry a little until it forms a light coating, then polish with a soft cloth until shiny. Remove any traces of product on rubber or plastic surfaces before they dry.

Do not use in intense sunlight or on a warm/hot lacquered surface. Keep the container thoroughly closed and store in a sheltered place, protected from frost.

Please always read the label and product information before use. Do not leave the product to dry. The product may corrode sensitive surfaces. Please test before use.

Further information of the composition can be found on the Material Safety Data Sheet (MSDS).
