Item ref.: PHRE6000302

EAN / ACL : 0604375003026 / 6126041

DLU : 3 years

BAU nber : N-69461

Autonomy: Approx. 10 days

Use biocide safely. Always read the label and product information before use.

PRODUCT DESCRIPTION & ADVANTAGES

- Effective for 6 hours against most insects, including ticks (Lyme's disease) and serious disease-carrying mosquitos: malaria, dengue, Zika, Chikungunya (anopheles, aedes, tiger, culex).
- Adapted to the whole family: recommended as from 6 months old. Dermatologically tested.
- Derived from sustainable harvesting.

DIRECTIONS FOR USE

Read the label before use. Apply and spread evenly over the areas of the skin to be protected. Do not spray directly on the face but apply using your hands. Avoid contact with eyes, mucous membranes, sensitive areas of the skin, damaged skin and lesions. Wash your hands properly after applying the product. Once the protection time has expired, wash the areas where the product was sprayed. Do not apply to children's hands. Do not use on infants under the age of 6 months. Frequent, repeated application is not necessary. These instructions must be followed except in zones where there is a risk of transmission of serious diseases by mosquitoes, in which case the preventive measures communicated by the health authorities must be complied with. Store at a temperature of less than 30° C.

PRECAUTIONS FOR USE

Warning: Do not swallow. Do not use on persons allergic to any of the components. Do not inhale the spray. Keep out of reach of children. IN EVENT OF SWALLOWING, call a POISON CONTROL CENTRE or a doctor should you feel unwell. If you have to consult a doctor, show him/her the product or the label. To avoid risks for people and the environment, follow the directions for use. Dispose of the packaging according to municipal regulations. Do not discharge into the environment. Refer to the batch and expiry date on the bottle.

TIP

40% of insect bites are through clothing.

Use Biovectrol Tissu to impregnate your textiles and sleep under a Pharmavoyage-impregnated mosquito net.
